

LENGTH / MOUNTING DIMENSIONS

Note: Fixture light source based on 11" nominal length LED boards. Specify "Inside Clear" dimension to the nearest 1/16" within the range for a given number of LED boards. Manufactured length tolerance is $\pm 1/16"$. Intermediate supports required for fixtures longer than 34-15/16". Supports should be located equidistant from fixture ends.

INSIDE CLEAR DIMENSION	LED BOARD QUANTITY	REQUIRED INTERMEDIATE SUPPORT QTY.
23-15/16 - 34-7/8"	2	-
34-15/16 - 45-7/8"	3	1
45-15/16 - 56-7/8"	4	1
56-15/16 - 67-7/8"	5	2
67-15/16 - 78-7/8"	6	2
78-15/16 - 89-7/8"	7	2
89-15/16 - 96"	8	2

Fixture lengths closer to the minimum range results in reduced dark area across the lens.

Example of a fixture with two LED boards
